## Paytable

### *The logic of Paytable design*

- The Paytable is designed as a long vertical scrollable page as shown below
- The BG image should be the same as in the Feature screen (i.e. of the Main Game)
- On the top should be the slides with the images used in the Feature Screen

### **Desktop Example (Mobile should have the same logic):**

*Note: Please ignore that the texts in the illustration below are in All Caps, we need them in regular cases as mentioned in the description below.*

Feature 1:

Title: COLOSSAL SPIN

Body: Randomly on any spin, COLOSSAL WILD symbols can spin through. Any which land in view, either fully or partially, will produce multiple WILD symbols.

Feature 2:

Title: CASH RESPINS

Body: Triggered by 5 or more CASH symbols anywhere in view, Cash Respins will award 3 respins with all CASH values remaining in place.

During Cash Respins only CASH symbols are in play and every time a new one lands, the respins will reset to 3.

If the respins run down to zero, the feature will end and all CASH values in view will be collected.
