

REEVO

GAME DESCRIPTION

A thrilling Day of the Dead themed game that transports players to the heart of Mexican tradition.

Set in an immersive world of colourful visuals, lively music, and compelling gameplay this medium to high volatility slot takes its inspiration from homemade altars found in Mexico thought to guide spirits back to the land of the living.

Altar de Muertos is a 5x3, 20-payline, medium to high volatility slot which contains vast amounts of Free Spin potential, enhanced by exhilarating multipliers. Trigger this bonus round by landing three or more Scatter symbols. As the reels spin look out for the cross symbol with each winning line multiplied by a random multiplier, boosting payouts. And that's not all, the most fortunate of players can hit REEVO's Grand Prize feature with up to 100x your stake, enough to lift anyone's spirits!
